Education

Vellore Institute of Technology, Bhopal

Expected May 2026

B.Tech in Computer Science and Engineering — CGPA: 8.45/10

Skills

Programming Languages: Java, JavaScript, Python

Frontend: React.js, Next.js, HTML, Tailwind CSS

Backend & APIs: Node.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Render, Web Speech API

Concepts: API Integration, CRUD Operations, Data Structures and Algorithms

Projects

AI Virtual Assistant (JARVIS-Style)

Jun–Jul 2025

Java, React.js, Node.js, MongoDB, Web Speech API, JWT

- Engineered a browser-based AI voice assistant using Web Speech API, achieving sub-2s response time for real-time interactions.
- Designed and secured RESTful APIs with JWT-based authentication for reliable user session management.
- Developed Java backend modules for automation, task execution, and testing; deployed scalable application on Render.

Hotel Booking Management System

Feb–May 2025

React.js, Node.js, MongoDB Atlas

- Built a full-stack hotel booking platform supporting 50+ rooms with dynamic reservation and management features.
- Implemented MVC architecture with efficient CRUD operations for users, rooms, and bookings using MongoDB Atlas.
- Integrated ZegoCloud for real-time communication and followed Git feature-branch workflows for collaborative development.

Decentralized Voting Application

Sept–Oct 2025

Python, Solidity, React.js, MetaMask

- Developed a tamper-proof blockchain-based voting system using Solidity smart contracts and MetaMask authentication.
- Integrated Web3.js and Ethers.js for seamless frontend-blockchain interaction and validated smart contract logic using Python test scripts prior to testnet deployment.

Achievements

Stage 2 Finalist — Virtusa Corp Hackathon

Apr 2026

- Selected among top teams for building an AI/ML-based trade confirmation system (MetaAttnX), demonstrating strong problem-solving and system design.

Flight Director — NASA Kennedy Space Center Program, Florida, USA

Oct 2016

- Led mission control operations during a simulated Apollo launch, showcasing leadership and decision-making under pressure.

Content Creator Team — Blockchain Club

Jun 2023 – Aug 2024

- Designed and published posts and reels to promote 3 blockchain events, boosting visibility and engagement.
- Created creative content strategies that enhanced audience reach and participation across social platforms.
